Summary

Coupa Analyst with 2+ years of experience in software quality assurance and system support. Proven expertise in **NRT and UAT (User Acceptance Testing)** designing test scenarios, executing test cases, identifying defects, and validating system behaviour against business requirements to ensure high-quality releases. Skilled in **CRA** with hands-on experience resolving **Coupa to CRA supplier and user synchronization issues**, troubleshooting program-related defects, and supporting translations for CRA programs. Known for analytical problem-solving, attention to detail, and the ability to collaborate effectively with cross-functional teams to drive successful testing outcomes and seamless system integrations.
